

QUALITY, SAFETY & ENVIRONMENT PROTECTION

CFND is a responsible company which places great importance on quality and safety.

Safety is paramount to us, as it is a guarantee of quality for our customers. We place great importance on enhancing our employees' skills and on improving the services we offer.

Inland waterway transport is the most environmentally-friendly mode of transport since it produces far lower CO² emissions than road haulage. CFND is always taking a step further in that way, searching for the ecologically oriented solutions.

CFND - PART OF A STRONG TEAM

CFND is a logistics provider specialized in transport on inland waterways in the Danube basin. The company was founded in 2010 in Belgrade with a goal to develop logistics activities along the Danube trading route.

MODERN FLEET FOR RELIABLE BUSINESS

CFND operates its own well-equipped modern fleet with a total load capacity of 30.000 tons, managed by experienced and qualified crew.

WE BRING YOUR LOGISTICS BACK ON TRACK

From 19th February 2015, CFND is a part of Rhenus Group which provides logistics services around the globe with turnover of € 4.2 billion. Rhenus has more than 460 locations worldwide and employs 25,000 people. The Rhenus business areas – Contract Logistics, Freight Logistics, Port Logistics and Public Transport – manage complex supply chains and provide a wealth of innovative value-added services.

CFND provides charter and combined transport services for all types of bulk, general and project cargo on the Danube, Rhine and Main, connecting the Black Sea and the North Sea.

With our network of more than 40 locations throughout Europe, we can organise the full inland waterway transport chain, including the pick-up and final delivery runs, using road and rail services alongside the inland waterways. In our day-to-day activities, we focus all the time on our customers. Responsible employees develop tailored logistics solutions to your needs for the entire value chain.

We offer you a wide range of transportation services:

- transport with own vessels
- intermediation in contract concluding between the ship owners and the shippers
- tracking of cargo throughout the entire logistic chain
- organization of transshipment in ports
- combined logistics solutions – ship-truck connection
- cargo insurance

We transport great variety of products such as:

- **Bulk cargo** - grains, fertilizers, construction materials
- **General cargo** - palletized and bagged cargo, steel products
- **Project, oversized cargo**
